INTERNATIONAL FASTENER & ASSEMBLY SUMMIT AT THE INTERNATIONAL FASTENER EXPO

OCTOBER 7, 2026 | PHOENIX, AZ

Get the most out of your week at the International Fastener Expo by investing in a day of technical training before the show begins.

This unique, flexible learning experience features three of our most requested technical programs. Choose the sessions that best match your responsibilities and interests - or attend all for a full day of in-depth training and networking.

Whether you're in engineering, quality, manufacturing, sales, sourcing, or technical management, these sessions provide practical knowledge you can immediately apply in your business.

PRICING AND REGISTRATION:

Register early! The cost varies by registration date but is all-inclusive with access to educational sessions, expo hall and welcome party.

WHY ATTEND?

- Learn from a nationally recognized instructor.
- Gain practical technical knowledge you can apply immediately.
- Prepare for productive conversations during the International Fastener Expo.
- Network with engineers, manufacturers, distributors, suppliers, and fastener professionals from across the industry.

Build your technical knowledge, expand your professional network, and arrive at IFE ready to make the most of the show!
