NEW! Spanish Webinar Series

Presentado en inglés y español

Introducing our new live webinar series presented in both English and Spanish. It's the perfect training opportunity for your entire team. Register for one or register for all.

Each 90-minute webinar will be presented in English by Salim Brahimi, IFI's Director of Technology, and translated into Spanish by Carlos Suarez, Industrial Engineer and Quality Control Specialist at Pernostock.

Fastener training and continuing education is important across all job functions in the industry. Whether it's understanding the basics, learning new trends or becoming confident navigating standards, Fastener Training Institute has you covered with all your training needs.

"Spanish training has been a goal of ours for years. Removing the language barrier for training is important and it will make the perfect training opportunity for entire teams. It's critical everyone in our industry has access." — **FTI'S MARKETING DIRECTOR, JO MORRIS.**
